

Europass Curriculum Vitae

Personal information

First name and surname **Francesco Vigni**
Address N 11, Strada dell' Arbiola, 53100 Siena, Italy
Telephone Mobile: +3932417977
Nationality Italy
Date of birth 15/04/1965

Work experience

Dates From 2009 until now

Main activities and responsibilities Intra and extra vascular invasive procedures under ultrasound, fluoroscopic and TC guidance. Ultrasound with diagnostic and therapeutic intervention procedures
Occupation or position held Interventionist Radiologist; activity of free profession as an ultrasound radiologist
Section of Angiography (currently U. O. S. A) of interventionist radiology

Dates November 2000

Main activities and responsibilities Ultrasound with diagnostic and therapeutic intervention procedures
Occupation or position held Medical doctor of first level

Dates March 2000

Main activities and responsibilities Medical doctor of first level - Ultrasound with diagnostic and therapeutic intervention procedures
Occupation or position held Seat transfers of workplace to the Department of University Radiology

Dates	From July 1994 until September 1995
Main activities and responsibilities	Work as volunteer doctor and performs ultrasound at the Oncological Prevention Centres of the Italian League for the fight against cancer of Siena
Occupation or position held	Medical Doctor of First level
Dates	From July 1994 to September 1995
Main activities and responsibilities	Emergency medical service at UU.SS.LL 32, 30 and 7; simultaneously carries out primary care physician
Occupation of position held	Primary Care Physician
Dates	From 17 April 1993 until 19 April 1994
Main activities and responsibilities	Role of Second Lieutenant of prep of the Army's health service Army Health Service Complementary Students
Occupation of position held	Medical Officer- Military pharmaceutical chemical plant of Florence-Assistant to the Health Care section School of Military Health in Florence - attended the 112 army course

Education and training

Dates	From 1 th November 1992 to 31 th October 1993
Title of qualification awarded	Enabling to carry out medical profession- Medical Pathology-Internal Doctor- Section directed by Prof. Carlo Gennarini Medicine and Surgery
Principal subjects/occupational skills covered	Medical Pathology-Internal Doctor- Section directed by Prof. Carlo Gennarini Medicine and Surgery
Dates	On the first University season on 1992
Title of qualification awarded	Enabling to carry out medical profession

Principal subjects/occupational skills covered	Medicine and Surgery
Dates	On 7 April 1992
Title of qualification awarded	Degree in Medicine and Surgery With score of 110/110 and praise Medicine University of Siena
Principal Subject/occupational skills covered	Medicine and Surgery
Dates	On 1985 with the score of 48/46
Title of qualification awarded	- Graduated from high school-gymnasium- High School Enea Silvio Piccolomini of Siena

Organisational skills and competences

Place: Salsomaggiore Terme- Italy from 24 to 28 October 1998
-XI National Congress SIUMB - XIV International Days of Ultrasonology (lecturer in practical exercises of the course of ultrasonology).

Place: Montesilavano-Pescara- Italy October 23-27, 1999
-XII National Congress SIUMB- XV International Days of Ultrasonology (lecturer in the practical exercises of the ultrasonology training course)

Place:Cosenza, -Italy, from 6 to 10 October 2001
- XIII National Congress SIUMB-XVI International Days of Ultrasonology (lecturer in the practical exercises of the ultrasonology training course)

Place: Abano Terme from 21 to 25 September 2002
- XIV National Symposium Siumb- XVII International Days of Ultrasonology (lecturer in practical exercises of the ultrasonology training course).

Place: Rome from 15 to 19 November 2003
- XV National Congress Siumb- XVIII International Days of Ultrasonology (lecturer in practical exercises of the ultrasonology training course).

Technical skills and competences

Florence from 26th to 29th February 1996
-VII Computed Tomography Course

Gargonza Castle, Monte San Savino, Arezzo from 10 to 14 June 1996
Intensive Intrauterine Ultrasound Course

Certosa di Pontignano, Siena from 20 to 21 October 1997
Advanced Muscle-Tendon Ultrasound and Integrated Imaging

Siena 21 -22 September 1999
Advanced shoulder ultrasound course

Siena 21 -22 September 1999
Integrated knee imaging advanced ultrasound course

Cosenza from October 6 to 10, 2001
Ultrasound of the knee. Advanced skeleton muscular ultrasound course. XVI International Days of Ultrasonology.

Arezzo from 28 to 29 October 2001
Exploration of the abdomen, echocardiographic paracentesis and drainage of post surgical complications. Ultrasound course for surgeons.

Siena from 15 to 17 December 2002
Ultrasound study with eco-color-Doppler before and after surgery in the surgical approach of the oblique hernia outside the surface inguinal port.
National days of up-dating in outpatient surgery and day surgery.

Computer skills and competences

Siena June 14, 1997
Itinerant Course of Radiology Computer Science

Milan, 26 June 2006
Fourtysecond Conference
Updates on the technological evolution of PACS digital imaging digital imaging equipment, radiopathy imaging and computer radiology

Annexes, Publication Issue

1. The radiological treatment of pulmonary embolism by cava filters: our experience. Acts VII College Day - University of Siena- December 2, 1995
2. Arterial therapy of hepatic carcinoid (HCC) : technical and problematic. Acts VII -College Day - University of Siena - December 2, 1995
3. Raeder's Syndrome: diagnosis and follow-up with MR angiography. College Day-University of Siena-1995
4. Prostatic Cancer: Magnetic Resonance (RM) vs Ecotomography (ECT). State of the art in ultrasound and image training techniques. National Conference Study Sections of Gastroenterological Radiology and Computer Tomography SIRM. Naples, June 28-30, 1995
5. Comparison of cholangiography in RM (MRC) and RX-cholangiography (RxC) in the framework of the patient with biliary pathology. State of the art in ultrasound and image training techniques. National Conference, Gastroenterological Radiation and Computer Tomography SIRM Sections. Naples 28-30 June 1995
6. Congenital venous artery kidney cirrhosis: a case description: Acts National Congress SIRM, June 1996
7. Analysis of the chemoembolization procedure in hepatocarcinoma therapy. Acts Academy of Fisiocritici; XV Series Part XV-1996
8. Cava filters in the prophylaxis of pulmonary embolism. Acts Academy of Fisiocritici; Series XV- part XV-1996
9. Percutaneous transluminal angioplasty of renal arteries in the treatment of nephrovascular hypertension: personal experience. Academic Acts of Fisiocritici; XV Series Part XV-1996
10. Agenesis of the right branch of the pulmonary artery. Acts Academy of Fisiocritici; Series XV- part XV-1996
11. Cavernosography: Comparison between conventional and digital acquisition techniques. Acts Clinical-radiological Ischitan Meeting
12. Cava filters in prophylaxis of pulmonary embolism. First Joint Congolation of the Italian Society of Flebology; First International Symposium of the Italian Society of Flebolinphology; Intersectoral Forum with the Italian Society of Clinical and Experimental Flebology. Siena 23-25 September 1996
13. Epidermal testis cysts. Description of a case studied with ecotomography. Medical Radiology - Vol. 95-n. 6; pages 681-683. June 1998
14. Computerized tomography study of meniscus with distractor apparatus. Medical Radiology. Vol. 98-n. 1-2-pages 10-14. July-August 1999
15. Role of eco-color Doppler in early diagnosis of sclerodermic renal crisis and evaluation of pharmacological therapy with "Iloprost". Acts of the thirty-nine national congress of the Italian Society of Medical Radiology; page 153, Mllano June 10-14, 2000
16. Comparison of ultrasonography and arthro-RM in the upper impingement of the shoulder: our experience. Acts of the thirty-nine national congress of the Italian Society of Medical Radiology; pag. 185, Milan 10-14 June 2000
17. Supraspinatus tendon tears: comparison of US and MR arthrography with surgical correlation. European Radiology 12:1211-1217; 2002
18. Ultrasonographic and eco-color Doppler pre and post operative in the surgical approach of the outer oblique hernia of the surface inguinal port. Acts of national days of updating in outpatient surgery and day surgery. Siena from September 15 to December 17 – 2002
19. US, MRCP,CCT and ERCP: a comparative study in 131 patients with suspected biliary obstruction. Med Sci Monit 11(3): MT8-18, 2005
20. Treatment of small hepatocellular carcinoma: a comparison of techniques and long term results. European Journal of Gastroenterology & Hepatology 18:659-672, 2006
21. JAG tearing technique with radiofrequency guide wire for aortic fenestration in thoracic endovascular aneurysm repair. Cardiovascular Intervent Radiol, vol.35 (1) pp. 176-9, 2012
22. (Combined radiolocig-urologic procedure for the placement of ureteral stent in a case of bilateral iatrogenic ureteral lesion). Urology, vol. 79 (1) pp. 36-43. 2012
23. Single-center experience and 1 –year follow-up results of " sandwich technique" in the management of common iliac artery aneurysms during EVAR. Cardiovasc Intervent Radiol, vol. 35 (%) pp. 1195-200-2012

Tenure and reports courses and congress

Location: Cosenza, -Italy, from 6 to 10 October 2001
XIII National Congress SIUMB-XVI International Days of Ultrasonology (lecturer in the practical exercises of the ultrasonology training course)

Place: Messina- Italy from 15 to 17 November 2001
Tendon of the lower limbs. Ultrasound: methodology of study, anatomy, pathology.
Ultrasound conference of the study section of Musculoskeletal Radiology of the Italian Society of Medical Radiology.

Location: Turin, from 12 to 13 November 1999
Comparison of eco-art RM in upper shoulder impingement. Our experience.
"We Review Traditional Radiology in the Light of New Imaging Methods".

Certosa di Pontignano, Siena, from 25 to 27 May 1995: Residential course of hepato-biliary and gastroenteric ultrasound. SIRM ultrasound section

Siena-Certosa of Pontignano, June 21, 1996:
Clinical Diagnostic Problems in Uterine Neoplastic Disease. IIIth radiological and urological meeting in Tuscany

Siena from 9 to 11 September 1996
Course of Joint Ecotomography and Tummy Muscle

Bologna from 27 to 28 September 1996
Modern Diagnostics for Orthopedics and Traumatology images

Siena from 8 to 9 November 1996
Week end in Siena: Clinical-radiological meeting

Certosa di Pontignano, Siena May 23, 1997
Clinical diagnostic problems in urinary TBC and female vesicular incontinence
IVth radiological and urological meeting of Tuscany

Siena 24 October 1997
" Today's diagnostic techniques of bronchopulmonary pathology". Lung cancer

Florence, 18 and 19 September 1997
Legislative Decree n. 230/95
Applications in Radiology, Radiotherapy and Nuclear Medicine

Chianciano, 3 and 4 September 1998
Diagnostic problems for urinary system images

Siena 9-10 November 2001
National Conference of SIRM Muscle Skeleton Study Section

Barcelona (Spain) 17-18 February 2002
International Bracco imaging school for contrast-enhanced ultrasound

Albano Lazio (Rome) April 17-18, 2002
Second theoretical-practical updating course:
Ultrasound: technological developments and use of contrast medium
Second practical theoretical updating course:
Laser thermoablation of primary and secondary liver focal lesions

Siena 18-19 October 2002
Twentieth weekend in Siena, clinical and radiological meeting

Attendance
and reports
courses and
congress

Siena 3-4 June 2005
Second course-conference: imaging and pulmonary cancer therapy

Milan 23-27 June 2006
Fourtysecond conference: imaging and pulmonary cancer therapy

Milan 25 June 2006
Fourtysecond Conference SIRM
Updates on imaging in oncology, diagnostic radiology of lung disease, genitourinary apparatus and orthopedic interventional radiology

Milan, 26 June 2006
Fourtysecond Conference
Updates on the technological evolution of PACS digital imaging digital imaging equipment, radiopathy imaging and computer radiology

Aquila from 6 to 10 November 2006
live skeletal muscle imaging

Rome 18-19 October 2007
From liver to liver: travel around liver cancer oncology

Verona from 7 to 9 May 2009
Fourth ESGAR liver imaging workshop

Milan 18-19 February 2011
Oncology intervention in Italy: the new role of micro ultrasound

Paris, France from 27 to 30 April 2011
GEST 2011 Europe (Global Embolization Symposium and Technologies)

Siena ,

Medical Radiologist
